INVITATION TO REGISTER AS AN INTERESTED AND AFFECTED PARTY (I&AP), INVITATION TO PUBLIC MEETINGS AND COMMENT ON THE DRAFT SCOPING REPORT (DSR) | Manyabe Consultancy (Pty) Ltd Project Code: 202308 | DMRE Reference Number: NW 30/5/1/2/358 MR

Notice is given in terms of Section 41 of Government Notice Regulation (GNR.) No. 982 in Government Gazette No. 38202 (04 December 2014), as amended, of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, promulgated in terms of Section 24(5) and 44 of the of the National Environmental Management Act (Act No.107 of 1998), as amended (NEMA) that Tharisa Minerals (Pty) Ltd (herein referred to as Tharisa) intends to mine Platinum Group Metals (PGM) and Chrome through underground mining methods i.e. transitioning from the current opencast mining to underground mining. The mine is located on Farms K/Kraal 342 JQ, Rooikoppies 297 JQ and Elandsdriif 467 JQ, south of Marikana in the North West Province.

Two (2) separate support surface infrastructure areas will be constructed to service the West and East underground areas. The opencast mining area will continue to be operational while the underground workings are being constructed and transitioned to underground mining. Therefore, the opencast workshop and surface infrastructure will remain and be operated separately to the underground support surface infrastructure.

Manyabe Consultancy (MC) has been appointed by Tharisa as an independent Environmental Assessment Practitioner (EAP), to undertake a Section 102 amendment application in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), as amended (MPRDA), in order to amend the Environmental Management Programme (EMPR); to undertake EIA to obtain an Environmental Authorisation (EA) in terms of the NEMA; and to obtain a Waste Management License (WML) in terms of the National Environmental Management: Waste Act, 2008 (Act. 59 of 2008) (NEMWA).

In terms of GNR.327 (Listing Notice 1), activities 9, 10, 11, 12, 13, 14, 19, 21D, 24, 25, 27, 30, 34, 45 and 46; GNR.325 (Listing Notice 2), activities 4, 6, 15 and 16; and GNR.324 (Listing Notice 3), activities 4 and 12, a Scoping and Environmental Impact Report (S&EIR) process must be undertaken in order to obtain an EA from the Department of Mineral Resources and Energy (DMRE). In terms of GNR.921 [Category B (4)], activities 7 and 10, a S&EIR process must be undertaken in order to obtain a WML from the DMRE. It is for this reason that an Integrated EA – WML application is being lodged. Water uses listed under section 21 (a), (c), (g), (i) and (j) of the National Water Act, 1998 (Act No. 36 of 1998) (NWA) will be triggered by the proposed project, and a Water Use Licence Application (WULA) must be undertaken in order to obtain a Water Use License (WUL) from the regional Department of Water and Sanitation (DWS). A Section 102 amendment application in terms of the MPRDA, to amend the EMPR is concurrently being lodged with the DMRE. The Draft Scoping Report for the above-mentioned project is available for public review and comment from **Friday, 09 February 2024 to Monday, 11 March 2024** on MC's website (www.manyabeconsultancy.com) and at the following public place:

INVITATION TO REGISTER AS AN INTERESTED AND AFFECTED PARTY (I&AP), INVITATION TO PUBLIC MEETINGS AND COMMENT ON THE DRAFT BASIC ASSESSMENT REPORT (BAR) | Manyabe Consultancy (Pty) Ltd Project Code: 202305 | DMRE Reference Number: NW 30/5/1/2/358 MR

Notice is given in terms of Section 41 of Government Notice Regulation (GNR.) No. 982 in Government Gazette No. 38202 (04 December 2014), as amended, of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, promulgated in terms of Section 24(5) and 44 of the of the National Environmental Management Act, 1998 (Act No.107 of 1998), as amended (NEMA) that Tharisa Minerals (Pty) Ltd (herein referred to as Tharisa) intends to raise the walls of Tailings Storage Facility (TSF) 2 and TSF2 Extension. TSF2 and TSF2 Extension fall within the Rustenburg and Madibeng Local Municipalities, under the jurisdiction of Bojanala Platinum District Municipality (BDM), south of Marikana in the North West Province, on Farms K/Kraal 342 JQ and Elandsdriif 467 JQ, south of Marikana in the North West Province.

The mine currently operates three (3) processing plants, namely Genesis, Voyager and Vulcan. Genesis and Voyager are able to process 100 kt and 300 kt per month, respectively. The waste product produced by both plants is sent to the Vulcan plant for further extraction of chrome, after which, the tailings material is hydraulically pumped to TSF2 Extension for storage. There is a pending application for the operation of the proposed TSF 3, which will, when approved by the Department of Mineral Resources and Energy (DMRE), receive tailings once TSF2 Extension has reached its Full Supply Level (FSL). It is expected that the current active TSFs at the mine (TSF2 and TSF2 Extension) will reach their FSL by December 2025 based on the current tailings production. The pending Environmental Authorisation (EA) and Water Use License (WUL) timelines associated with the proposed TSF 3, compelled the mine to pursue an additional storage solution in lifting the walls of the current TSF2 and TSF2 Extension. Manyabe Consultancy (MC) has been appointed by Tharisa as an independent Environmental Assessment Practitioner (EAP), to undertake a Section 102 amendment application in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA), to amend the Environmental Management Programme (EMPR); to undertake Environmental Impact Assessment (EIA) to amend an EA in terms of the NEMA; to amend the Waste Management License (WML) in terms of the National Environmental Management: Waste Act, 2008 (Act. 59 of 2008) (NEMWA); and to amend WUL in terms of the National Water Act, 1998 (Act No. 36 of 1998) (NWA).

In terms of GNR.327 (Listing Notice 1), activities 21D, 34, 48 and 66; a Basic Assessment (BA) process must be undertaken to obtain an amended EA from the DMRE. With respect to the WML, TSF2 and TSF2 Extension were previously authorised by the DMRE. The current application is for the amendment of the existing approvals. It is for this reason that an Integrated EA – WML application is being lodged. Water use listed under section 21 (g) of the NWA was triggered by the development and operation of the existing TSF2 and TSF2 Extension. A Water Use Licence Application (WULA) was undertaken, and a WUL was obtained from the regional Department of Water and Sanitation (DWS). A Section 102 amendment application in terms of the MPRDA, to amend the EMPR is concurrently being lodged with the DMRE.

The Draft Basic Assessment Report (BAR) for the above-mentioned project is available for public review and comment from **Friday, 09 February 2024 to Monday, 11 March 2024** on MC's website (www.manyabeconsultancy.com) and at the following public place:

RUSTENBURG HERALD - RUSTENBURG - “Ja, daar is darem nog so hier en daar eerlike mense met integriteit in hierdie land”.

Voorgaande is omtrent die gemiddelde reaksie van mense wanneer hulle die storie met ‘n gelukkige einde van mnr Johan Human (‘n pensioenaris) van Hexrivier Landgoed Estate net buite Rustenburg hoor. Enigiemand sal saamstem dat hierdie ‘n storie is wat nie aldag meer in Suid-Afrika gehoor word nie - bittermin mense is vandag nog eerlik in die tye waarin almal maar net altyd geld nodig het...

Mnr Human (82) was op 18 Januarie saam met sy dogter, skoonseun en kleindogter in die Waterfall Mall-inkoopsentrum vir inkopies en daarna terug na hul motor wat in die parkeerarea geparkeer was.

Feitlik onmiddellik nadat hulle die motor aangeskakel en vertrek het, is daar eers weer vinnig stilgehou en sitplekke omgeruil om vir almal ‘n gemakliker rit terug huis toe te verseker. Dit was met dié dat mnr Human wat met sy beursie op sy skoot gesit het, dat die beursie natuurlik uitgeval en ongemerkt in die pad beland het. Oomblikke later het konsternasie losgebars toe mnr Human en sy familie besef dat die beursie met presies R4 000 daarin, skielik weg is, maar na ‘n geskarrel en soektog is die stryd gewonne gegee met die vertroue dat die beursie hopelik êrens in die motor of in ‘n inkopiesak te voorskyn sou kom. Dit was egter maar ‘n skrale hoop...

Nie ver daarvandaan nie was Machiel Koch (‘n inwoner van Koster) besig om na ‘n bakkie te kyk waarin hy belanggestel het en dit was met ‘n kort bestuurstoets in die omgewing dat hy iets wat soos ‘n beursie lyk, in die pad opgemerk het. Ten spyte van taamlike druk verkeer het Machiel die bakkie in trurat gesit en teen die verkeer in teruggestoot sodat hy die beursie kom optel. Groot was sy verbasing om te vind dat dit inderdaad ‘n taamlike “stywe” beursie was met ‘n kontantbedrag van presies R4 000 - so asof iemand hierdie bedrag vroeër reggesit het vir ‘n spesifieke transaksie.

Nouja, bakkie koop of nie, Machiel het nie geswig voor die versoeking om die meevallertjie vir homself te hou nie maar persoonlike inligting soos ID-nommers, bankkaarte en so meer nagegaan voordat hy dit vir sy meisie Roline Bronkhorst gegee het om die res van die ondersoekwerk te doen. Op haart beurt het Roline die inligting aangestuur na ‘n klient van haar - ‘n polisieerservis wat in Klerksdorp woon - en sodoende is die kontakbesonderhede van mnr Human en sy dogter by wie hy by Hexrivier Landgoed woon - vasgestel.

Verlede Woensdag was ‘n opwindende dag vir mnr Human en sy familie toe Machiel hulle in die Waterfall Mall ontmoet het en die beursie met die kontant en al die oorspronklike inhoud aan hulle terugbesorg het. Die dankbaarheid was groot en benewens ‘n biltongruiker met allerlei lekker eetgoed is daar ook ‘n klein beloning in die vorm van kontant as blyk van waardering aan Machiel oorhandig. Vir mnr Human en sy familie het hierdie storie ‘n gelukkige einde gehad. Uit alle oorde het bedanking, blyke van waardering en aanprysings vir Machiel en sy meisie Roline ingestroom terwyl Rustenburg Herald hard besig was met die reëlings om hierdie gelukkige storie met ons lesers en ander belangstellendes te deel.
